

PRODUCT DATA SHEET

Gillfab® 5071A/5072A

DESCRIPTION

Gillfab® 5071A and 5072A are light weight, high performance sandwich panels made from fiberglass cloth reinforced phenolic facings bonded to Gillcore® meta-aramid honeycomb.

APPLICATIONS

The panels are designed for use in aircraft cabin interior structures such as galleys, lavatories, bulkheads, partitions, storage compartments and crew rests.

FEATURES

- Low heat release
- · Low smoke and toxicity generation
- · Superior moisture and corrosion resistance
- Uniform, non-porous facings facilitate the application of paint or other decorative overlays with minimal surface preparation
- · Easily cut and machined
- Service temperature to: 180°F (80°C)
