Subject: Notification on Tariff Impacts and Mitigation

Dear Valued Customer,

The U.S. Government has imposed tariffs on certain goods manufactured outside the USA. The Gill Corporation (TGC) may temporarily pause imports to assess the impact of these tariffs and to confer with customers on tariff mitigation strategies.

For U.S. deliveries, price adjustments need to be made to address the new tariff costs. For non-U.S. deliveries, in addition to price adjustments, TGC is collaborating with freight partners to minimize disruptions, delays and/or any additional costs, though these impacts may occur despite these efforts. If shipments must route through the U.S., TGC will notify you of any additional costs and/or schedule delays. Since any tariff-related delay will be outside of TGC's control, it will constitute a force majeure event.

We look forward to working with you to manage these changes effectively. Please contact your Regional Sales Manager or Customer Service Representative listed below with any questions.

Regards,
Chris
